We've shaped world-class senior care using these three pillars of modern care:

1

Each of our physicians has a 450-patient maximum, compared with the current industry average of 2,300+ patients per physician.

2

Every patient engages with their physician once a month. Our doctors will know your clients as people, on a first name basis, both personally and professionally.

3

All patients get our full commitment, receiving head-to-toe assessments upon registration to ensure your client's overall wellness.

Join our community of care.

We offer high quality medical care and better outcomes for your clients. Our Membership Growth Consultants (MGCs), who guide internally, help set up appointments and offer quality service to your clients. Loyalty and respect for your clients and you, never initiating changes to an existing Medicare Advantage plan and always referring benefit questions to you. Assistance with customer service to make sure needs are met — we do it with you, so you can keep selling.

Our broker partnership includes:

- Various steps to protect your agent of record:
 - Tracked through Salesforce
 - Staff trained on importance of agent of record
- Introductions and connections to community contacts to engage in the neighborhoods we serve.
- Co-host educational events on-site at our centers and in our local communities, such as Medicare 101, LIS, and T-65 seminars, etc.
